

JOB OPPORTUNITY

Job Title: Director- Cardiac Inpatient Services

Date Posted: 2020-01-07

Job Location: Seattle, WA

Job Requirements:

- Master's degree in Nursing; may be substituted with a Master's in Business Administration, Public Health, Healthcare Administration, or related field provided the candidate also possesses a BSN (Candidates currently enrolled in a Master's program will be considered. Must complete program within three years in position and maintain solid performance).
- Current BLS, PEARS or PALS certification
- Minimum 5 years of strategic leadership experience developing and enhancing care delivery programs, business development and management and developing leaders and effective care teams within a large, complex organization.

Job Description:

As a Director at Seattle Children's Hospital, you will direct, manage and evaluate all clinical and site of care components of cardiac critical care on a 24/7 basis in a manner that meets continuous quality improvement, customer service, programmatic growth and financial requirements supporting the mission of Seattle Children's Hospital. Provide leadership to develop and implement strategic initiatives for the service line including all components of operations, facilities, capital and operating budgets and staffing for program and sites of care. Direct and manage contracted services to meet patient and organization needs. Develop, implement and manage strategic plan to respond to anticipated trends, changes in treatment, economics or patient needs. Develop and sustain interdisciplinary relationships, committees and manage special projects that contribute to program development.
